

**REISSUE APPLICATION DECLARATION BY THE INVENTOR**

Docket Number (Optional)

2005-259

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6,347,433, granted February 19, 2002and for which a reissue patent is sought on the invention entitled Flat Panel Display Tilt and SwivelMechanism

the specification of which

☐ is attached hereto.☒ was filed on February 17, 2004 as reissue application number 10/780,187  
and was amended on February 17, 2004, June 30, 2006, and Aug. 3, 2009  
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

Claim 1 contains an error for the reason that the claim includes the superfluous text, "including an open portion," "closed portion, the first torque element having an elongated," and "extending from the closed portion." This is a broadening reissue for the reason that claim 1 is broadened by the deletion from the claim of the superfluous text indicated in the preceding sentence.
